

Recycled Milk Log

Offer vs. Serve is only available for approved sponsors and have no Seriously Deficiencies. When using offer verses serve you must have this “recycled milk log” on file **EVERYDAY for EACH meal service.**

For example, regardless of the sites trends you must always start meal service with the number of Expected attendance (see example below). For example if you on average have 50 children come to your site you must have 50 milks available each day.

The Food & Milk is placed on a serving line and the children can pick the items. You must keep track of the milk and use this form, for every site every day. All recycled food items must be stored in accordance with local health codes, and must be documented.

Sponsors should therefore maintain some record of their daily use of purchased milk or other food items which are recycled. Sections 210.8(c), 220.11(b), 225.9(d)(4), and 226.10(c)
